

PRESS RELEASE

RELEASE DATE: IMMEDIATELY

Terra Sonic International Launches New Website

Marietta, Ohio, USA...Terra Sonic International, a leading manufacturer of Sonic Drilling Rigs and a service provider of Sonic Drilling Services, has launched a new and informative corporate website.

To enhance the experience for Product and Service customers, the website offers clear navigation choices. Customers for Products and for Services can now easily get to dedicated sections via prominent top-bar navigation buttons.

The website is customer-focused. On the "Product" side, detailed information is easy to find on all models, and on the "Services" side, a listing of all of the types of served industries and applications is available detailing Terra Sonic's broad experience. A Request for Quote/Request for Information form makes it easy to ascertain whether Terra Sonic International's capabilities will be a good fit for any project at hand.

"Terra Sonic International is a leader in this industry," said Bob Lauson, TSi President. "We wanted our new website to reflect our expertise and experience while also allowing visitors to quickly and easily navigate and get the information they need. We are proud to offer the newest and most advanced fleet of rigs in the Sonic Drilling space as well as the services to put them to work."

Headquartered in Marietta, Ohio, Terra Sonic International also has regional service offices in Aiken, South Carolina; Raleigh, North Carolina; Orlando, Florida; and Memphis, Tennessee. To learn more visit www.terrasonicinternational.com.
