

PRESS RELEASE

RELEASE DATE: IMMEDIATELY

Terra Sonic International Names New President

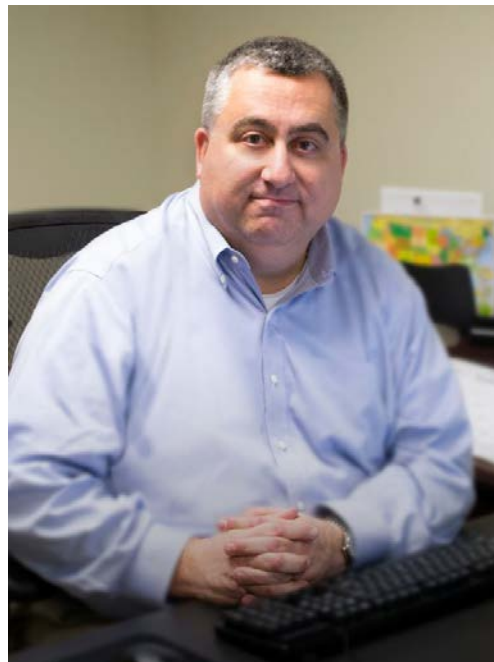

Marietta, Ohio, USA. . .Terra Sonic International, the industry leader in the manufacture of Sonic Oscillators, Sonic Drill Rigs and Sonic Drill Steel, has named Vincent J. Trotta as its company president.

Mr. Trotta comes to Terra Sonic with an extensive background in engineering, product development, sales and management. He enjoyed a 19-year career at GE where he began as an electrical engineer with GE Transportation Systems and worked his way up to General Manager, South American Operations, headquartered in Brazil, after a stint as President Director, PT of GE Lokomotif Indonesia in Jakarta, Indonesia.

From there, Mr. Trotta moved to GE Aircraft Engines where he focused on market development driving Six Sigma productivity projects for the 150-member global sales team. He was later named General Manager, Global Component Repair & Accessories for GE Aircraft Engines.

Mr. Trotta continued his career at GE serving as Sales Integration Leader for GE Inspection Technologies. He was ultimately named General Manager of China Operations in Shanghai, China.

After serving as Western Sales Director at Keystone Automotive Operations, Mr. Trotta was named Director, Global Sales Operations, Product Management and Marketing and later, Director of Sales for North America for Boart Longyear, headquartered in Salt Lake City, Utah.

Rudolph John Lehman, CEO of Terra Sonic International stated, "Vince Trotta's unique career path beginning with design engineering and product development, added to his extensive domestic and international sales management and market development successes combined with his recent experience with a key player in the drilling industry makes him a perfect fit to lead and drive Terra Sonic International into an incredibly exciting future. Sonic Technology is the 'wave of the future' and Vince is ideally suited to help Terra Sonic achieve that future."

Mr. Trotta resides in Marietta, Ohio, with his wife, Melanie, and their prized collection of special edition Ford Mustangs.
